Weich, saugfähig und nachhaltig

Turtle Mats werden mit recycelter, superabsorbierender Baumwolle hergestellt. Die Rohstoffgewinnung ist durch das Recycling ressourcenschonend, da weniger Wasser als beim Anbau von Baumwolle verbraucht wird und Alttextilien wieder der Verwendung zugeführt werden. Die Baumwollfasern saugen Schmutz und Feuchtigkeit aktiv auf und machen Turtle Mats zu einer leistungsstarken Feuchtigkeitsbarriere.

Dadurch sind sie ideal für alle Bereiche im Haus geeignet, in denen viel Nässe und Schmutz anfällt, wie dem Eingangsbereich, der Terrasse, dem Balkon oder als Fressnapfmatte. Britische Hundebesitzer schätzen seit Langem die Vorteile von Baumwollmatten! Saugstark und dekorativ sind sie zusätzlich eine ausgezeichnete Wahl fürs Badezimmer. Dank der genoppten Nitrilgummi-Rückseite bieten Turtle Mats besonders in nassen Bereichen sicheren Halt. Sie sind in der Maschine waschbar und mit einer 5-Jahres-Garantie ausgestattet.

Soft, Absorbent, and Sustainable

Turtle Mats are made with recycled super absorbent cotton. Recycling conserves resources by using less water than traditional cotton farming and giving old textiles a second life. The cotton fibre actively absorb moisture, making Turtle Mats a strong barrier against dirt and wetness.

This makes them perfect for all areas of the house where a lot of moisture and dirt is present, such as the entrance area, patio, balcony and back door. British dog owners have long appreciated the strengths of cotton mats! Their absorbent and decorative qualities make them an excellent choice for bathrooms as well. With a gripped Nitrile rubber backing, Turtle Mats are highly slip-resistant, even in wet areas. Fully machine washable, Turtle Mats are also crafted to last with a 5-year guarantee.

Douce, absorbante et durable

Les Turtle Mats sont fabriqués à partir de coton recyclé super absorbant. Le recyclage permet d'économiser des ressources en utilisant moins d'eau que la culture traditionnelle du coton et en donnant une seconde vie aux textiles usagés. Les fibres de coton absorbent activement l'humidité, faisant des Turtle Mats une barrière efficace contre la saleté et l'humidité.

Cela les rend parfaits pour toutes les zones de la maison où l'humidité et la saleté sont fréquentes, comme l'entrée, la terrasse, le balcon ou la porte arrière. Les propriétaires de chiens apprécient depuis longtemps les atouts des tapis en coton ! Leurs qualités absorbantes et décoratives en font également un excellent choix pour les salles de bain. Avec un dos en caoutchouc nitrile antidérapant, les Turtle Mats offrent une sécurité maximale, même dans les zones humides. Entièrement lavables en machine, les Turtle Mats sont conçus pour durer, avec une garantie de 5 ans.

Morbido, absorbente e sostenibile

I Turtle Mats sono realizzati con cotone riciclato super assorbente. Il riciclo risparmia le risorse utilizzando meno acqua rispetto alla coltivazione tradizionale del cotone e dando una seconda vita ai tessuti usati. Le fibre di cotone assorbono attivamente l'umidità, rendendo i Turtle Mats una barriera efficace contro sporco e umidità.

Questo li rende ideali per tutte le aree della casa dove sono presenti umidità e sporco, come l'ingresso, il pianerottolo, il balcone e la porta sul retro. I proprietari di cani britannici apprezzano da tempo i vantaggi dei tappeti in cotone! Le loro qualità assorbenti e decorative li rendono anche una scelta eccellente per il bagno. Con una base in gomma nitrilica antiscivolo, i Turtle Mats offrono un'ottima sicurezza, anche in aree umide. Completamente lavabili in lavatrice, i Turtle Mats sono progettati per durare, con una garanzia di 5 anni.

Suave, absorbente y sostenible

Las Turtle Mats están hechas con algodón reciclado superabsorbente. El reciclaje conserva recursos al usar menos agua que el cultivo tradicional del algodón dando una segunda vida a los textiles usados. Las fibras de algodón absorben activamente la humedad, convirtiendo a las Turtle Mats en una barrera eficaz contra la suciedad y la humedad.

Esto las hace perfectas para todas las áreas del hogar donde hay mucha humedad y suciedad, como la entrada, el patio, el balcón y la puerta trasera. ¡Los propietarios de perros británicos han apreciado durante mucho tiempo las ventajas de las alfombras de algodón! Sus cualidades absorbentes y decorativas también las convierten en una excelente opción para los baños. Con una base de goma de nitrilo antideslizante, las Turtle Mats son altamente seguras, incluso en áreas húmedas. Totalmente lavables a máquina, las Turtle Mats están diseñadas para durar, con una garantía de 5 años.

DUNE

DUNE – die nachhaltige Fußmatte für Drinnen und Draußen

DUNE ist mit ihrer groben 3-dimensionalen Struktur so konzipiert, dass das Wasser durch tieferliegende Rinnen aufgefangen wird und darin abfließt. Somit ist sie perfekt für den Einsatz im Außenbereich geeignet. Optisch ansprechend kann sie natürlich auch im Innenbereich eingesetzt werden.

Neben der Funktionalität ist der nachhaltige Einsatz von recycelten Materialien besonders erwähnenswert. Das Obermaterial besteht zur Hälfte aus 100 % recyceltem Polyester, das zum Beispiel aus PET Flaschen oder aus anderen Kunststoffteilen gewonnen wird. Der rutschfeste Rücken ist zu einem Teil aus recyceltem Nitrilgummi aus eigener Produktion.

DUNE – the sustainable doormat for indoors and outdoors

With its coarse three dimensional structure, DUNE is designed so that water is collected and drained through its deep channels; making it perfect for outdoor use. Visually appealing, it can also be used indoors.

In addition to its functionality, DUNE uses recycled materials with half of the upper material being made from 100 % recycled polyester, which is obtained from PET bottles or other plastic parts. The non-slip backing also contains recycled nitrile rubber from our own production.

INDOOR
OUTDOOR

DUNE – le paillason écoresponsable pour intérieur et extérieur

Avec sa structure tridimensionnelle épaisse, le tapis DUNE a été conçu afin que l'eau soit collectée et évacuée par de profondes rainures. Il est donc parfaitement adapté à une utilisation en extérieur. Visuellement attrayant, il peut bien sûr aussi être utilisé à l'intérieur.

En plus de sa fonctionnalité, le modèle DUNE est composé de matériaux recyclés. La moitié du matériau supérieur est constituée de polyester recyclé à 100 %, obtenu à partir de bouteilles en PET ou d'autres pièces en plastique. Le dos antidérapant contient également du caoutchouc nitrile recyclé provenant de notre propre production.

DUNE – lo zerbino sostenibile per interni ed esterni

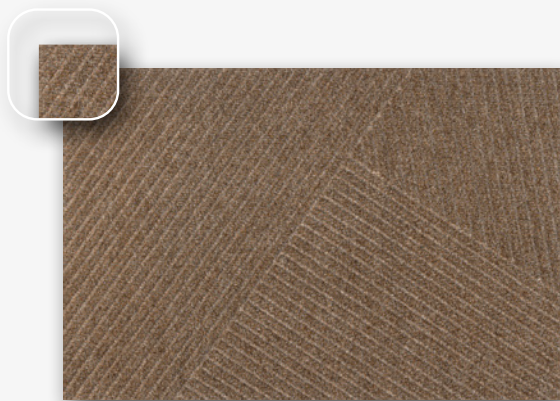

DUNE, con la sua ruvida struttura tridimensionale, è progettato in modo tale che l'acqua venga raccolta da scanalature più profonde e scorra via. Pertanto è perfettamente adatto per l'uso all'aperto. Visivamente gradevole, può naturalmente essere utilizzato anche all'interno.

Oltre alla sua funzionalità, è particolarmente degno di nota l'uso sostenibile di materiali riciclati. La metà della fibra è costituita al 100 % di poliestere riciclato, ottenuto ad esempio da bottiglie in PET o altre parti in plastica. Il dorso antiscivolo è in parte realizzato da gomma nitrilica riciclata di nostra produzione.

DUNE – la alfombra sostenible para interiores y exteriores.

Con su gruesa estructura tridimensional, DUNE está diseñada para recoger y drenar el agua a través de sus canales profundos; haciéndola perfecta para uso en exteriores. Visualmente atractiva, también se puede usar en interiores.

Además de su funcionalidad, DUNE utiliza materiales reciclados en la mitad del material superior hecho 100 % de poliéster reciclado, que se obtiene de botellas de PET u otras piezas de plástico. El dorso antideslizante también contiene caucho de nitrilo reciclado de nuestra propia producción.

REVIVE

REVIVE – die nachhaltige Fußmatte mit hoher Lichtechtheit

Revive – heißt „wiederbelebt“ und erzählt, wie aus nutzlosem Produktionsabfall ein vollwertiges neues Produkt entsteht.

Die Verwendung von **Renycle™ 50** Garn spart bei der Garnherstellung Energie, Wasser und Emissionen. Hochwertiger Nylonabfall wird ressourcenschonend zu neuem Garn mit ausgezeichneten Eigenschaften verarbeitet. Zusätzlich entfällt der Druckprozess, denn das Muster der Fußmatte entsteht durch das 2-farbige Einziehen beim Tuften. Revive hat durch die Garnfärbung eine sehr hohe Lichtechtheit und alle bekannten Vorzüge der wash+dry Familie.

REVIVE – the sustainable doormat with high light fastness

Revive – tells the story of how useless production waste is turned into a fully-fledged new product.

Using **Renycle™ 50** yarn saves energy, water and emissions during yarn production. High-quality nylon waste is processed into new yarn with excellent properties in a resource-saving way. There is also no need for additional printing processes, as the pattern of the doormat is created by a 2-colour tufting process. Thanks to the yarn dyeing, Revive has a very high light fastness and all the other well-known advantages of the wash+dry family.

REVIVE – le paillason durable et hautement résistant à la lumière

Revive signifie „renaître“ et raconte comment des déchets de production inutiles sont transformés en un nouveau produit à part entière.

L'utilisation du fil **Renycle™ 50** permet d'économiser de l'énergie, de l'eau et des émissions lors de la production du fil. Les déchets de nylon de haute qualité sont transformés en un nouveau fil aux excellentes propriétés, tout en économisant les ressources. En outre, le processus d'impression n'est plus nécessaire car le motif du paillason est créé par le procédé de touffetage en deux couleurs. Grâce à la teinture des fils, Revive a une très haute résistance à la lumière, en plus de tous les avantages bien connus de la famille wash+dry.

REVIVE – lo zerbino sostenibile ad alta resistenza alla luce

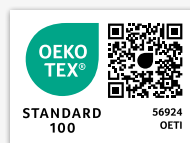

Revive – significa „rivivere“ e racconta come gli inutili scarti di produzione si trasformano in un prodotto nuovo a tutti gli effetti.

L'utilizzo del filato **Renycle™ 50** consente di risparmiare energia, acqua ed emissioni durante la produzione del filato. Gli scarti di nylon di alta qualità vengono trasformati in nuovi filati con eccellenti proprietà in modo da risparmiare risorse. Inoltre, il processo di stampa non è più necessario, in quanto il modello dello zerbino viene creato dal processo di tufting a 2 colori. Grazie alla tintura in filo, Revive ha una solidità alla luce molto elevata e tutti i ben noti vantaggi della famiglia wash+dry.

REVIVE – La alfombra sostenible con alta resistencia a la luz

Revive – cuenta la historia de cómo los residuos de producción inútiles se convierten en un nuevo producto en toda regla.

El uso del hilo **Renycle™ 50** ahorra energía, agua y emisiones durante la producción del hilo. Los residuos de nylon de alta calidad se procesan en un nuevo hilo con excelentes propiedades y de una manera que ahorra recursos. Además, no es necesario el proceso de impresión, ya que el patrón de la alfombra se crea mediante el proceso de mechones de 2 colores. Gracias al teñido del hilo, Revive tiene una alta resistencia a la luz y todas las ventajas de la familia wash+dry.

Toda la colección viene con un dorso de goma de nitrilo de alta calidad y fácil de cuidar, una solución segura y antideslizante. El tejido está hecho de nylon 100 % de alta calidad con una gran absorción de la suciedad que también es fácil de limpiar.

Todas las alfombras wash+dry son lavables a máquina hasta 60 °C, se pueden secar en secadora y tienen un borde de goma plano.

Tanto las pasilleras como los formatos redondos hacen que el wash+dry DESIGN sea perfecto para todos los ambientes interiores, así como en áreas exteriores cubiertas.

Eugen Stross

„Ich brauche seit Kindertagen den Pinsel in der Hand. Ich liebe es, die Farben nebeneinander zu stellen und die Farbfläche durch Strukturen oder Ornamente aufzulösen.“

„I have always wanted to be holding a brush in my hand, ever since I was a child. I love painting the colours alongside one another and breaking up the areas of colour with structures and decoration. “

„Depuis tout petit, j'ai besoin d'avoir un pinceau dans la main. J'aime placer les couleurs les unes à côté des autres et décomposer la surface colorée par des structures et des ornements.“

„Da quando ero piccolo amo avere un pennello tra le mani. Amo combinare tra loro i colori e decorare la superficie con strutture ed ornamenti.“

„Desde la infancia necesito el pincel en la mano. Me gusta colocar los colores uno junto al otro y descomponer el campo de colores mediante estructuras u ornamentos.“

Textildesign by Domogalla

„Alles ist Design. Ich sehe die Fußmatte als grundlegendes Statement für Stil und Geschmack, das ich elegant und ansprechend gestalte – ganz im Sinne gelungenen Designs.“

„Everything is design. I regard the doormat as a fundamental statement about style and taste which I design to be elegant and appealing – just like a successful design.“

„Tout est design. Je vois le paillason comme une déclaration fondamentale de style et de goût que je façonne avec élégance et classe – pour un design réussi.“

„Tutto è design. Vedo lo zerbino come dichiarazione fondamentale di stile e gusto, che strutturo in modo elegante e allettante, proprio come un design riuscito.“

„Todo es diseño. Veo el felpudo como una declaración fundamental de estilo y gusto, que conformo de manera elegante y atractiva, totalmente en el sentido del diseño logrado.“

wash+dry DECOR

wash+dry DECOR – waschbare Teppiche - Hygiene, Funktionalität und Design

wash+dry DECOR verbindet die hygienischen Eigenschaften einer Fußmatte mit der Optik eines exklusiven Teppichs.

Die Kollektion ist mit einem hochwertigen Nitrilgummirücken ausgestattet, der sicheren und rutschfesten Halt auf allen trockenen Hartböden bietet. Der Flor besteht aus 100 % hochwertigem, strapazierfähigem Nylon mit pflegeleichten Eigenschaften.

Alle wash+dry DECOR Teppiche sind bis zu 60 °C maschinenwaschbar und trocknergeeignet. Für die tägliche Pflege können sie wirksam mit dem Staubsauger gereinigt werden. wash+dry DECOR Produkte haben einen dichten und etwas höheren Flor. Die Kollektion ist für Fußbodenheizungen geeignet und garantiert pures Designvergnügen und Hygiene für jeden Wohnraum oder überdachten Außenbereich.

wash+dry DECOR – washable rugs - hygiene, functionality and design for your floors

wash+dry DECOR combines the hygienic easy to clean properties of a doormat with the visual appeal of an exclusively designed area rug.

The collection comes with an easy-care, high-quality nitrile rubber backing as standard; a safe, anti-slip solution. The pile is made of 100 % high durable nylon with its easy to clean features.

All wash+dry DECOR products are machine washable up to 60 °C and can be tumble dried to ensure their hygienic properties. In terms of daily care, they can be effectively cleaned with a Hoover. wash+dry DECOR has a dense and rich looking pile but still maintains a low profile. The range is also suitable for use with underfloor heating, making it a practical and designer choice.

wash+dry DECOR – tapis lavables - hygiène, fonctionnalité et design pour vos sols

wash+dry DECOR combine les propriétés hygiéniques et facilité de nettoyage d'un paillason avec l'attrait visuel d'un tapis au design exclusif.

Toute la collection est équipée d'un support en caoutchouc nitrile de haute qualité et facile d'entretien, une solution antidérapante et facile à entretenir. Le velours est composé à 100 % de nylon très résistant et facile à nettoyer.

Tous les produits wash+dry DECOR sont lavables en machine jusqu'à 60 °C et peuvent être séchés en machine pour garantir leurs propriétés hygiéniques. Pour ce qui est de l'entretien quotidien, ils peuvent être nettoyés efficacement à l'aide d'un aspirateur. wash+dry DECOR possède des poils denses et riches, tout en restant discret. La gamme peut également être utilisée avec un chauffage par le sol, ce qui en fait un choix pratique et design.

wash+dry DECOR – tappeti lavabili - igiene, funzionalità e design per i vostri pavimenti

wash+dry DECOR combina le proprietà igieniche e di facile pulizia di uno zerbino con il fascino visivo di un tappeto per aree dal design esclusivo.

L'intera collezione è dotata di una base in gomma nitrilica di alta qualità, che rappresenta una soluzione sicura e antiscivolo. La superficie è realizzata al 100 % in nylon resistente e di alta qualità, molto semplice da pulire.

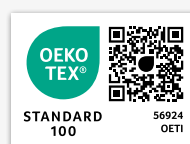

Tutti i prodotti wash+dry DECOR sono lavabili in lavatrice fino a 60 °C e possono essere asciugati in asciugatrice per garantire le loro proprietà igieniche. Per quanto riguarda la cura quotidiana, possono essere puliti efficacemente con l'aspirapolvere. wash+dry DECOR ha un pelo denso e folto, ma mantiene un profilo basso. La gamma è anche adatta all'uso con il riscaldamento a pavimento, il che la rende una scelta pratica e di design.

wash+dry DECOR – alfombras lavables - higiene, funcionalidad y diseño para sus suelos

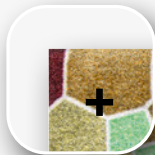

wash+dry DECOR combina las propiedades higiénicas y fáciles de limpiar de una alfombra, con el atractivo visual de una alfombra de diseño exclusivo.

Toda la colección viene con un dorso de goma de nitrilo de alta calidad, una solución segura y antideslizante. El tejido está hecho de nylon 100 % de alta calidad y alta durabilidad con sus características de fácil limpieza.

Todos los productos wash+dry DECOR son lavables a máquina hasta 60 °C y se pueden secar en secadora para garantizar sus propiedades higiénicas. En cuanto al cuidado diario, pueden limpiarse eficazmente con una aspiradora. wash+dry DECOR tiene un tejido denso y de aspecto vistoso, pero sigue manteniendo un perfil bajo. La gama también es apta para su uso con calefacción por suelo radiante, lo que la convierte en una opción práctica y de diseño.

Auf Wunsch genau nach Maß

Jedes Zuhause ist individuell und einzigartig wie Sie selbst. Deshalb kann es schon einmal vorkommen, dass unsere Mono-colour Standardgrößen nicht Ihren Wünschen entsprechen. Teilen Sie uns Ihr Wunschmaß mit und wir produzieren die ausgewählte Farbe gemäß Ihren Vorgaben bis zu einer Maximalgröße von 150 x 700 cm. Bitte beachten Sie unsere Größentoleranz von +/- 3 %. Mindestbestellmenge: 1m², nur mit Gummirand erhältlich

Made-to-measure, on request

Every home is individual and unique, just like you are. It may therefore be that our mono-colour standard sizes do not meet your requirements. Tell us what size you require and we will produce it in the colour you require, in line with your specifications up to a maximum size of 150 x 700 cm. Please note we have a size tolerance of +/- 3 %. Minimum order quantity: 1m², only available with rubber border

Du sur mesure

Chaque maison est individuelle et unique, comme vous. Par conséquent, il peut arriver que nos tailles standard Mono-colour ne correspondent pas à vos besoins. Faites-nous part de la taille que vous désirez et nous produirons la couleur sélectionnée en fonction de vos besoins jusqu'à une taille maximale de 150 x 700 cm. Veuillez noter notre tolérance de taille de +/- 3 %. Quantité minimale de commande : 1m², uniquement avec bordure en caoutchouc

Su misura, a richiesta

Ogni casa è unica e personale come voi stessi. Per questo può talvolta accadere che le nostre misure standard Monocolour non rispondano alle vostre esigenze. Comunicateci la misura desiderata e produrremo il colore richiesto secondo le vostre impostazioni fino a una misura massima di 150 x 700 cm. Si prega di notare che le misure hanno una tolleranza del +/- 3 %. Quantità minima ordinabile: 1m², disponibile solo con bordo in gomma

A pedido, exactamente a medida

Cada hogar es individual y único como usted mismo. Por esta razón, puede suceder que nuestras medidas estándar monocolor no respondan a sus deseos. Infórmenos su medida deseada y produciremos el color seleccionado de acuerdo con sus especificaciones hasta un tamaño máximo de 150 x 700 cm. Tenga en cuenta nuestra tolerancia de tamaño de +/- 3 %. ORIGINAL

Unsere Bestseller mit recyceltem Flormaterial

Wir verwenden für die Herstellung der wash+dry Original Serie 75 % recyceltes Garn. Der Einsatz von Renycle™ 75 Garn spart bei der Garnherstellung Energie, Wasser und Emissionen. Für das Recycling wird hochwertiger Nylonabfall aus der eigenen Produktion verwendet und ressourcenschonend zu neuem Garn mit ausgezeichneten Eigenschaften verarbeitet. Alle positiven Eigenschaften des Garns wie hohe Lichtechtheit, Strapazierfähigkeit sowie einfache Waschbarkeit bleiben erhalten und die Ressourcen werden nachhaltig geschont!

Our bestselling range made from recycled pile material

We use 75 % recycled yarn for the production of our new and improved wash+dry Original range. The use of Renycle™ 75 yarn saves energy, water and emissions during yarn production. High quality nylon waste is recycled and processed into new yarn with excellent properties which saves resources. The yarn maintains all its positive properties, such as high lightfastness, durability and easy washability whilst resources are sustainably conserved!

Nos best-sellers avec des poils recyclés

Nous utilisons 75 % de fil recyclé pour la fabrication de la gamme wash+dry Original. L'utilisation du fil Renycle™ 75 permet d'économiser l'énergie, l'eau et les émissions lors de la production du fil. Les déchets de nylon de haute qualité sont recyclés et transformés en un nouveau fil aux excellentes propriétés, dans le respect des ressources. Le fil conserve toutes ses propriétés positives, telles que sa grande résistance à la lumière, sa durabilité et sa facilité de lavage, tout en préservant durablement les ressources !

I nostri bestseller con materiale di filato riciclato

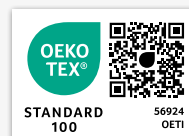

Per la produzione della gamma Wash+dry Original utilizziamo il 75% di filato riciclato. L'uso del filato Renycle™ 75 consente di risparmiare energia, acqua ed emissioni durante la produzione del filato. Gli scarti di nylon di alta qualità provenienti dalla nostra produzione vengono utilizzati per il riciclaggio e trasformati in nuovi filati con proprietà eccellenti in modo da risparmiare risorse.

Tutte le proprietà positive del filato, come l'elevata resistenza alla luce, la durata e la facilità di lavaggio, vengono mantenute e le risorse vengono utilizzate in modo sostenibile!

Nuestros bestsellers con material de tejido reciclado

Utilizamos un 75% de hilo reciclado en la producción de la gama wash+dry Original. El uso del hilo Renycle™ 75 ahorra energía, agua y emisiones durante la producción de hilo. Los desechos de nylon de alta calidad de nuestra propia producción se utilizan para reciclar y procesar hilo nuevo con excelentes propiedades de una manera que ahorra recursos.

¡Todas las propiedades positivas del hilo, como la alta Resistencia a la luz, durabilidad y facilidad de lavado, se conservan y los recursos se conservan de manera sostenible!

Bei PVC-Böden, Linoleum-, Laminat- und Holzböden kann es durch eine Wechselwirkung mit gummibeschichteten Matten zu einer Farbveränderung der Oberfläche kommen.
 In the case of PVC, linoleum, laminate and wooden floors, discolouration may occur due to a reaction with rubber-coated mats.

Dans le cas de sols en PVC, linoléum, stratifié et bois, une décoloration peut se produire en raison d'une réaction avec les tapis recouverts de caoutchouc.

Nel caso di pavimenti in PVC, linoleum, laminato e legno, può verificarsi uno scolorimento dovuto a una reazione coi tappetini rivestiti in gomma.

En el caso de suelos de PVC, linóleo, laminados y de madera, puede producirse una decoloración debido a una reacción con las alfombras con dorso de goma.
